### Experience

#### Outlier

*AI Training Contributor | April 2025 - Present*

Contributed to AI model training projects involving frontend development tasks, including interface implementation, code evaluation, and quality review of technical responses.

#### Adech Themes

*Frontend & Design Systems Developer | October 2024 - Present*

Adech design system focused on color palettes and multiple themes for digital workspaces and projects, distributed through an NPM package for use in frontend workflows.

#### Blog

*Frontend Developer and Writer | June 2022 - Present*

Personal writing platform focused on publishing and organizing my original creative writing into collections. Built with responsive interfaces and CMS-based content management.
